

ABOUT THE PROJECT

Development cooperation often finds it difficult to escape colonial continuities. At the same time, the realities of life in the Global South are not very present in our everyday lives in Schleswig-Holstein. We want to highlight global perspectives and facilitate direct cooperation.

Images of - Latin America connects organizations and activists from regions of Latin America and Schleswig-Holstein in order to change fixed and discursively formed images of each other and to create new global networks. The focus is on the global learning approach - we learn from each other, exchange practical experiences and work on global problems of our time.

Over the past year, our participants have developed projects in 10 small groups, which they are now presenting to the public.

Throughout the afternoon, you can get in touch with activists and artists, establish new networks and pave the way for future collaboration. The projects will introduce themselves in detail at fixed times.

EXHIBITION

Semikolon, 4 PM

A DRY ANDALUSIA (SPAIN) / FACES OF THE COASTAL DRYLAND OF CHILE

The exhibition shows the reality of coastal communities in Andalusia (Spain) as well as the rural reality in La Serena (Chile) and how they have been affected by various current factors, including climate change.

PODCASTS

Semikolon, 4:30 PM
LATINA, EU?

Based on her personal discovery of Latin America, the Brazilian journalist Camila Moraes shares stories and tips in her podcast that inspire reflection on Latin American identity and culture.

Semikolon, 5 PM

Lecturas con voz de mujer

This podcast is all about female voices in the Latin American literary scene. Female authors and their books are presented, giving a female perspective on the world.

Semikolon, 5.30 PM

Agricultura Urbana Agroecológica Latinoamericana

The project aims to raise awareness of urban agriculture initiatives, present agroecological alternatives & make visible those active in trying to improve food production in their homes and cities.

Semikolon, 8 PM

Utopías distópicas – Connections between technologies and environment

The podcast explores the connections and the possibility of a sustainable and balanced relationship between technologies and the environment.

WEBSITE

Semikolon, 6.30 PM

De raíz... resiliencia climática

The Alianza Resiliencia has set itself the goal of evaluating data and documentation from Latin America on the subject of climate change and resilience. The first product is a podcast in which the realities in the regions are described and examined in more detail

WORKSHOPS

4.30 - 7.30 PM

Art therapy Workshop: Caminos de resiliencia - A Journey of self-discovery

In this workshop, the Collective for Art and Mental Health will present a toolkit to promote resilience and emotional awareness and to accompany self-exploration and healing processes. The workshop is open to anyone interested in mental wellbeing and mental health.

EN/ES

4.30 - 6.30 PM

Birds - Art as a form of Activism. Ideas-seed for workshop design

The workshop introduces a form of artistic activism and aims to provide tools and ideas to expand actions to protect areas threatened by resource extraction. You will get to know different working methods and creative approaches, such as art, puppet and music workshops, and apply them yourself in a group work.

DE/ES

5 - 7.30 PM

Experiential workshop: The right to be consulted and decide for the territory (from the body to the land)

The indigenous community Cabildo Pijao Mesas de Inca from Colombia is currently fighting to protect its territory from the settlement of an international oil company. In the workshop, they share their experiences and discuss the right to consultation and the importance of decision-making power over their own territory.

DE/ES

5-7 PM

FACRP Gayap Toolkit Workshop

Gayap describes the tradition of indigenous communities and the Merikin, in which people come together to fulfill an important task. The Caribbean environmental NGO FACRP has developed a toolkit for this purpose, which will be presented in this workshop. You can learn how to run effective gayap events for community action and movement in your area.
